

# LE THI PHUONG HUYEN

## Fresher Developer

I am a third-year student majoring in Computer Programming at FPT Polytechnic. I have basic knowledge and a serious working attitude. I want to work in a professional environment and create real value by completing assigned tasks well. Step by step, I aim to develop myself into a professional in this field.

### PROJECTS

10/2025 - 12/2025

Role: Full-stack Developer – Personal Project

#### Online Food Ordering Website

- Technologies: ASP.NET Core (Web API), Vue 3, SQL Server
- Achievements:
  - Designed and implemented the database with constraints to ensure data consistency.
  - Built a complete admin management system and customer features (shopping cart, payment, product filtering, messaging).
  - Developed a responsive SPA interface to optimize user experience and performance.
  - Managed source code on GitHub with clear and well-structured commits.
- GitHub link: <https://github.com/PhhHuynn/FoodShop>

### ACHIEVEMENTS

- Received the Golden Bee Award twice – Top 1 and several other awards at FPT PolySchool.
- Certifications: MOS Excel Associate 2019, MOS Word Associate 2019.

### ACTIVITIES

- Participated in various technology competitions: the FPGA & MCU Extended Design Contest 2025 and the Algorithm Thinking Challenge organized by FPT PolySchool.

### EDUCATION

FPT PolySchool

**Software Development – GPA: 3.98**

Aug 2022 – May 2025

FPT Polytechnic Da Nang

**Computer Programming**

Sep 2025 – Present

### SKILLS

Technical Skills

- Programming Languages: C#, JavaScript
- Frameworks: ASP.NET Core, Vue.js
- Database: SQL Server
- Tools: Git, Postman, Figma
